GMI-AISEC

Your AI, governed and under control.

THE QUESTION

"Are our generative AI systems and agents under control?"

GMI-AISEC continuously measures the security posture of your AI systems, from inventory to controls, with strictly authorised testing.

What you get

- AI asset inventory and architecture mapping
- Threat analysis and 34 controls across 8 categories
- Governed testing: prior authorisation, separation of duties, emergency stop
- Gap tracking through to closure
- UNKNOWN ≠ PASS: a missing answer is never a success

Who it's for
CISOs, AI leads, risk governance

Frameworks
ISO 42001 · NIST AI RMF · OWASP Top 10 LLM
